DRAG NET SPREAD FOR FLEEING TELLER

Police Working Hard to Catch Chester Runyon.

HE ABSCONDED WITH $96,000

Was Employed as Assistant Paying Teller by Windsor Trust Company, of New York—Speculation His Alleged Downfall.

New York, July 6.—A drag net has been spread throughout the United States and Canada for Chester R. Runyan, the assistant paying teller of the Windsor Trust company, who fled on Saturday last with $96,000 of stolen money.

The Pinkertons, who are in charge of the hunt, also notified by cable the police chiefs of all the important European and British ports, also of the principal coast cities of the south American countries.

That Runyan was not the immaculate young man his employers thought he was, up to the day he went off with his suit case stuffed with the trust company's money, is an established fact.

For weeks before his disappearance he had been speculating in stocks under the name of Martin Chase. Speculation accounts that he carried with three stock brokers have been unearthed. He had sustained heavy losses in those ventures, and at least two weeks before he fled he stole $10,000 to make good his margins.

It is believed the $10,000 was stolen at various times, and the thefts may have extended over a period of several months. On July 1st, the periodical checking up of the trust company's cash on hand would have revealed the shortage and it is believed Runyan decided to get away with all he could.

Runyan was very careful in his dealings as Martin Chase. He even disguised his writing so that it bore no resemblance to his own. As Martin Chase he wrote heavily and plainly, shading the letters. He wrote back-handed as a further disguise.

Specimens of his real and disguised writing have been obtained by the Pinkertons.

MISSIONARIY BISHOP'SVIEW.

Japan Dare Not Break Friendship with United States.

Newport R. I., July 6.—In discussing the American-Japanese situation the Rt. Rev. Sydney C. Partridge, mission bishop of Kiota, Japan, who came here to attend a meeting of the Rhode Island Society of the Cincinnati, said:

"In spite of all idle and reports to the contrary there has been no evidence in Japan itself of objectionable national arrogance and pride on account of the victory over Russia. On the contrary, its awful cost and its sacrifice of life has made them sober and thoughtful and humble to a degree which was remarkable. The country has opened itself as never before to foreigners of every clime, and the people have outdone themselves in international and personal courtesies. We opened the doors of Japan, we have always been her best and earnest friends; she knows she cannot, dare not, will not, allow that friendship to be broken."

GIRL DIES IN PRISON.

Was Said To Be Prettiest Woman Prisoner in Ohio Pen.

Columbus, O., July 6.—Margaret Walsh, the prettiest woman prisoner in the penitentiary died Friday of neparitis.

She was in an advanced stage of the disease when she arrived at the penitentiary in March to begin a three years' sentence for larceny.

The body was taken in charge by Father Kelley, the Catholic chaplain at the penitentiary, who will probably bury it because the mother discarded the girl some time ago. The Walsh girl was given the choice of her trial in Cleveland between a convent of detention and the penitentiary, and she chose the penitentiary.

SOUTH'S TEXTILE EQUIPMENT.

Southern Cotton Mills May Eventually Predominate World's Markets.

Baltimore, July 6.—In reviewing plans for additions to the textile equipment of the south during the past three months, aggregating 230,000 spindles, the Manufacturers' Record says:

New companies are being organized and established, corporations are adding to their equipments of machinery, and the additions anounced for established plants are about 125 per cent. more than those reported for the new companies. There is probably no more emphatic recognition of southern advantages for cotton manufacturing than the continued movement of the southern manufacturers to increase their spindleage from year to year. It is evident that southern cotton mill managers anticipate no difficulty in retaining their present position and eventually predominating the world's markets. This record of the second quarter of 1907 shows a considerable increase over that of the first quarter, when but 122,468 spindles were announced. The total for the second quarter is 227,736 spindles, which means the investment of about $5,000,000. The established mills will install 157,876 spindles, an investment of about $4,000,000, and the new companies will install 69,860 spindles, an investment of about $2,000,000.

The figures by states are:

Alabama, 37,736 Georgia, 39,540; North Carolina, 28,000, and Texas, 13,000 spindles. These figures are for spindles authoritatively announced as to be put in position, but not necessarily already added. Thousands of these spindles, however, have already been put in operation, other thousands are being installed at the present time and thousands more will be placed in the mills within the next few months.

SPORTING MEN DISGUSTED.

Said "Public Was Sold Again" in the Burns-Squires' Fight.

San Francisco, July 6.—Many of the sports and followers of the fistic game, whom it cost from $5 to $20 in addition to their railroad fare to see Tommy Burns, the Canadian, solve Bill Squires, the "Australian mystery," in the first round at Colma Thursday left Friday for their homes.

There were general expressions of disappointment and disgust among those who had come hundreds of miles to see what they believed a finished fight.

The morning papers declare "that the public was sold again," and call the fight a "fiasco," and the greatly overrated and widely heralded champion from the Antipodes is cartooned as a "Leomon" and "Sizzer."

The gross receipts of the fight were $25,251. Of this amount, Burns' share was $8,000, which he was to receive, win or lose. He refused to accept percentage. Squires' share as loser was $4,960 and Jeffries received $1,000 as referee. Tom Corbett, who handled the pool room at Colma, estimated that $72,000 changed hands on the fight. Barney Reynolds, Squires' manager, announced that the Australian lost $15,000.

Girl Dies at Skating Rink.

Atlanta, July 6.—Miss Lela Wiggins, aged 17, dropped in a faint on the floor of St. Nicholas skating rink Thursday and died in a few minutes. Miss Wiggins had not been skating only having arrived at the rink a few moments before. She had complained of being overheated, but she did not seem to be particularly distressed. Scarcely had she entered the rink when she was seen to reel and fall. Charles Wynne, who was standing near, helped carry the young woman to the ladies' retiring room, and rushed to the baseball park and summoned Steve Barnett. When Dr. Barnett arrived the young woman was dead.

Miami, Fla., Bank Closed.

Washington, D. C., July 6.—The Fort Dallas National Bank of Miami, Fla., was closed Friday by direction of the comptroller of the currency on information received from Bank Examiner McDonald, that the bank is insolvent. The liabilities are given at $80,466.

NEW YORK STREETS SCENE OF RACE RIOT

Band of Negroes Fatally Slash Policeman With Razors.

TRIED TO KILL OTHER OFFICERS

White Citizens Rushed to the Aid of Bluecoats—Reserves Are Called Out from Two Precincts Before Order Was Restored.

New York, July 6.—Policeman Edward Conrad was probably fatally injured in a race riot which occurred in upper New York late Thursday night.

Attempts were made to kill other policemen, scores of negroes were severely clubbed and five arrests were severely clubber and five arrests were made, but the trouble was brought under control.

The trouble started when Policeman Conrad seized a negro who was discharging a pistol on the street. Immediately hundreds of negroes ran to his aid, seized the policeman, slashed him with razors and kicked and beat him. White residents came to Conrad's aid, and in a few minutes a goodly row was on..

Reserves from two precincts had to be called to quell the rioting.

NEW SECURITIES CREATED.

Amount for First Half of 1907 Has Never Been Paralleled.

New York, July 6.—The amount of new securities created in the United States for the first half of 1907 has never been paralleled.

The grand total authorized is $1,278,728,500; already $799,442,100 has been issued since January 1, leaving $479,286,400 of this year's output to be sold in addition to a large carry over from the previous year. The railroads have applied in six months for $979,446,600, exclusive of $282,000,000 announced by the Hill roads and St. Paul last December. Industrial needs have been less pressing, yet not so light as the total of $299,281,900 would indicate.

The most prominent feature of 1907 financing to date has been the unprecedentedly heavy offerings of short notes paying very generous returns to investors—from 5 to 8 per cent and in exceptional cases even more. Altogether, $503,651,000 of this form of security has been put out.

REVOLT THREATENS INDIA.

Discontent Spreads to Aristocracy, Natives Trained to Fight.

London, July 6.—Dispatches from India report that the disaffection among the natives is rapidly increasing. According to a correspondent who has made several tours of Bengal, revolt is being preached in a great many provinces, and the natives are being trained to fight.

Formerly the discontent was confined to a few agitators, but now it has spread among the aristocracy, and landholders as well as national volunteers have branches in nearly every town and village, and tales of lawlessness and oppression by these volunteers come from every district. The rural police are weak.

Jailer Kills Prisoner.

Raton, N. M., July 6.—In an attempt Thursday by half a dozen inmates of the county jail, to overpower the jailer and gain their freedom, a prisoner named Brown, who was the ringleader in the jail breaking attempt, was shot and instantly killed. The attempt was frustrated by the jailer, John Gale, single-handed. The other inmates were forced back into their cells at the point of the jailer's gun.

Hanged Herself to Bedpost.

New York, July 6.—Distressed by the noises of the Fourth of July celebration Mrs. Johanna Evert a widow, hanged herself from a bedpost in her home in Jersey City. The Doctor Away from Home When Most Needed.

Diseases like cramp, colic and cholera morbus require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. For sale by all druggists.

Make a Summer Resort of your Porch

The market is full of shades—good, bad and indifferent—but the

"VUDOR" Shade

stands in a class alone as the Standard Porch Cooler, with a reputation as unassailable as Ivory Soap or Huyler's Chocolates.

A hundred thousand American homes, including the White House at Washington, are equipped with them, and here in Gainesville the scores of VUDOR Shades on nearly every street—some hung two years ago—are the best testimonials we could ask.

THE TRENTON PICNIC.

Tax Assessor W. W. Colson Reports the Biggest Time of His Life.

Tax Assessor W. W. Colson, who attended the Fourth of July picnic at Trenton, declares that it was the "greatest time" the good people of Trenton had ever known, and was the greatest day of his life also.

Mr. Colson states that people for miles around assembled at the big basket dinner and picnic at that town on the Fourth, and that the day was spent in a most enjoyable manner. There were many speeches by prominent people, and at noon there was spread the most tempting dinner of everything good to eat he had ever seen at one time.

In all, this celebration at Trenton was a grand one, there being nothing to mar the pleasure of those who attended, and the participants will remember the event for a long time.

Among those present from Gainesville besides Mr. Colson were Mr. and Mrs. W. G. Richardson and children, who are visiting relatives in the West End.

A Log for Governor of Virginia. He ought to win in a walk.

It will be observed that Carrie Nation waited until the President left Washington before beginning her Oyster Bay campaign.

The nature fakir will deny that President Roosevelt knows to a nicety how long are the prongs of Senator Tillman's pitchfork.

An exchange announces: "Foraker in the Field." When we last heard from him we supposed that he had taken to the woods.

The people of Lake City are highly elated over the action of the Florida Legislature in establishing a State college there, the town council having donated the former University buildings for that purpose.

The Navy Department is employing English ships for transporting coal from Norfolk to the Pacific Coast. They carry freight for less money and do not keep a lobby in Washington clamoring for a subsidy in addition to their freight charges.

Secretary Taft is being criticised because he failed to say a word about Senator LaFollette, while praising Senator Spooner, in his recent speech at Madison, Wisconsin. Perhaps Mr. Taft was not to blame, since LaFollette is his rival for the Republican nomination for the Presidency, while Spooner is not. That makes a difference.

The death of Judge Swayne, of the U. S. Circuit Court for the Northern District of Florida, gives the people of this State an opportunity to observe just what kind of a man President Roosevelt will appoint as his successor. If he names as good a man and eminent jurist as Judge Locke of the Southern Circuit, there will be no complaint on the part of Florida Democrats.

We always knew that Capt. W. J. Hillman of Live Oak had a heart as large as a Cincinnati ham, and that he was one of the most public spirited men in the South. He has contributed $4,100 to purchase a lot on which to erect a permanent home for the Salvation Army in Jacksonville, and work on the building will soon commence. We wish there were more Hillmans in Florida.

It is reported by residents of East Gainesville that certain boys are accustomed to shooting birds, regardless of specie, from the branches of trees in the streets of that section of the city. It is further stated that these boys apparently have no care for the safety of the people, as they use the regular standard rifle, discharging a standard cartridge, and on one or two occasions the bullets have come near striking pedestrians. These boys are probably not aware of the fact that they are doubly offending the law, and are likely to get into serious trouble. In the first place, there is an ordinance prohibiting the discharge of firearms within the city limits, and in the second place, there is also an ordinance protecting certain birds. The offenders will, therefore, heed this warning.

WASHINGTON LETTER.

No Doubt Efforts Will be Made to Renominate Roosevelt.

(Special Correspondence Daily Sun.)

Washington, D. C., July 6.—Since President Roosevelt carted off Secretary Loeb and his typewriter to Oyster Bay, we are denied the pleasure of reading and commenting upon the vows that originated at the seat of government and to which Mr. Loeb gave the vivid coloring that suited the strenuous ideas of the administration. Deprived of these official communications the newspaper men have to rely more upon their imagination, and when all else fails to guess whether the President will take a third term—if he can control the convention through the manipulation of the federal office-holders—and if the time honored opposition to the third term would lead to his defeat if he was renominated. There is no doubt that the great majority of the politicians have now come to believe that Mr. Roosevelt is scheming for a third term, and the newspaper men believe he will control the convention.

How much of a revolt there would be in the Republican ranks against a third term campaign will develop how much respect remains in the Republican heart for the precedent set by Washington, endorsed by Jefferson and decided for the time by the defeat of General Grant for a third term.

Can Roosevelt get what Grant was denied is a question of constant discussion in Washington. Thomas Jefferson opposed the third term idea. When certain citizens of Baltimore urged him to become a candidate for the Presidency a third time he wrote a reply in which he declared that while there was no express constitutional provision on the subject, yet the example of Washington formed a precedent which ought to control the practice of all future Presidents; and added that if a President should ever serve three terms he might easily serve for life, and even make the office hereditary in his family. No honest Democrat ever favored a third term. Those Republicans who favored Grant were defeated by the better element of their party. But it is now almost certain that the Lilly White Republicans of the Southern States, aided by the office-holders of the North and West, will try to renominate Roosevelt, and there would be great danger of electing him unless the Democrats are able to unite upon some candidate who can win votes among disgusted Republicans.

COMMISSIONERS APPOINTED.

Governor Broward has made the following appointments:

To be members of the commission created by the last Legislature to examine and audit claims against the State of Florida for enrolled services, forage, subsistence and transportation furnished to the State during the Seminole Indian wars of 1849, 1855, 1856 and 1857: Hons. J. H. Harwell, Bagdad; Charles E. Davis, Madison; J. W. Knight, Floral City.

As members of the commission to erect a suitable monument on the battlefield of Chickamaugua, in memory of the soldiers of Florida who took part in that battle: Hons. Samuel Pasco, Monticello; E. M. Law, Bartow; Pulaski Broward, Broward Station; John C. L'Engle, Jacksonville, and Fred L. Robertson, Tallahassee.

As members of a commission to consider and ascertain the appropriate kind of statue to be erected in honor of Edmund Kirby Smith and to ascertain the cost of same: Hon. F. P. Fleming, Jacksonville; Hon. E. M. Law, Bartow, and Gen. David Lang.

Senator Pettus also suffers the embarrassment of having an alternate Senator waiting to step into his shoes.

The Republican scramble to succeed to the Presidency has produced suffering from over-exertion, and the candidates are now watching each other from the safe vantage of luxurious summer retreats. As these candidates are the best the Republican party can produce, it must be rather disheartening to their backers to find how little the public think of them. The Knox boom is so dependent upon the corrupt Penrose machine that its fate in other and more honest hands would insure its rejection. The Fairbanks boom would not live a day without the careful management of the machinery that has been with so much care erected to control it. The Cannon boom is dependent upon Congress and Republican members of the House of Representatives are dependent upon the Speaker for good positions on committees that give them power, and if they are so inclined ample graft for themselves or their favored constituents. Somehow the wheels of the Taft chariot drag heavily in spite of the Roosevelt boosting, and there is evidence that it will result in being merely a center around which the administration forces can gather. For instance, the Republicans of Kentucky have just declared in favor of a "man like Roosevelt," which shows the desire to keep on the administration band wagon and in close communication with the political pie dispenser. That is all there is to the Republican party in the Southern States.

The canvass of Mississippi by John Sharp Williams and Governor Vardaman for United States Senator has led to Mr. Williams being seriously talked of as a candidate for President. Mr. Williams combines the two great requisites as a leader, for in addition to being the most scholarly debater in the country, he also draws around him the best minds in the party by his absolute fairness and the power of his intellectual attainments. That the people of Mississippi should bring him forward as her favorite son will meet with endorsement in many other States, for probably no other Southern man is so well known by Democrats, North and South; for in every campaign Mr. Williams has been a volunteer to spread the doctrines of Democracy and no one has done it better.

Editor Watterson says he has begged the paragraphers to let up on his dark horse because he doesn't want the public to get the idea that paragraphers feed on chestnuts. That seems to bear out Mr. Bryan's contention that Watterson's dark horse is a chestnut.

A pugilist known as the "Human Anvil" was arrested in New York on the charge of theft, but was acquitted when it appeared that a number of people had their hammers out for him.

ANOTHER CRAZY MAN.

Deputy Sheriff Arch Zetrouer Brought Man Here Saturday.

Deputy Sheriff Arch Zetrouer of Rochelle brought to this city Saturday morning an unfortunate negro man, whom he took into custody near the Phifer mill early Saturday morning. The negro who said his name was Si Bailey, appeared to be about forty-five years of age, and was a pitiable sight, as he was barefooted and his feet and hands evidenced hard use.

Bailey, in a wandering way, protested against the charge that he was out of his mind. He stated that he had been employed by a lumber and timber company at Summerfield, though he did not give the name, in pulling logs from the swamp, and declared that the cables had cut his feet and his hands so badly that it had caused him to have almost absolutely no use of them.

The unfortunate man was taken to the county jail, and will probably be examined as to his sanity within the next day or two.

HE TOTED A PISTOL.

Will Mitchell Must Suffer the Penalty for Offending the Law.

Because William Mitchell, a big, black, burly coon who could have defended himself against the attack of the average man with his fists and come out victorious, insisted on carrying a pistol, he is in trouble, as he was arrested at Neel on Friday upon this charge by Deputy Sheriff John Osteen of Willeford, who found him with the goods.

Officer Osteen brought Mitchell to this city Saturday, where he was arraigned upon a charge of carrying concealed weapons. He waived examination, and was sent to jail upon failure to produce a bond of $250.

This case will be brought before the grand jury at the fall term of court.

FOR SELLING LIQUOR.

Shed Lewis Arrested at Campville by Deputy Sheriff Story.

Deputy Sheriff Story of Windsor has made a "blind tiger" haul that he believes is going to prove a feather in his cap.

Officer Story placed under arrest Friday one Shed Lewis, who he claims was disposing of the beverage in a most profitable manner, and has been engaged in the practice for some time.

The prisoner was brought to this city and was arraigned before Judge Mason, when he was asked to give bond in the sum of $250 after waiving examination. Having failed to give the required bond he was sent to jail.

Miss Pauline Townsend has been visiting Miss Dessie Lee Tillman at Campville.

Miss Dessie Lee Tillman, the charmin daughter of Mr. and Mrs. J. L. Tillman of Campville, who has been visiting Miss Mary Green at Lancaster, S. C., has returned home on account of the illness of her mother. The many friends of this amiable young lady are pleased to learn that she had a most pleasant trip, and we are all glad to welcome our little sunbeam back in our circle again.

APPEARING OLD

Acts as a Bar to Profitable Employment.

You cannot afford to grow old.

In these days of strenuous competition it is necessary to maintain, as long as possible ones youthful appearance.

It is impossible to do this without retaining a luxuriant growth of hair.

The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness.

Newbro's Herpicide is the only known destroyer of this pest, and it is as effective as it is delightful to use.

Herpicide makes an elegant hair dressing as well as Dandruff cure.

THE NEWS FROM MELROSE.

Independence Day Was Appropriately Observed by the People Generally.

Melrose, July 6.—The celebration of Independence day was rather spoiled by the many and heavy showers during the day. At 10:30 a. m. quite a crowd had gathered at the Town Hall to listen to the following program:

Opening Speech by the Mayor—H. von Nozky.

Prayer—Rev. Sistrunk.

Song—My Country 'Tis of Thee.

Reading of Declaration of Independence—Mr. C. P. Huffman.

Song—Red, White and Blue.

Speech—Rev. H. Julian.

Song—Star Spangled Banner.

Speech—Rev. T. H. Sistrunk.

After the close of the exercises the dinner tables were prepared in the hall and everybody sat down to enjoy the excellent fare provided.

During the afternoon the Melrose nine played Rex, the latter winning by a score of 8 to 3.

Quite a number of the stores, the hotel and many private homes were decorated with flags.

The Lenema has had several trial trips and the machinery worked nicely when fully limbered up. She will certainly be the fastest boat on Lake Santa Fe.

Dr. McRae, W. S. Yearwood and L. Baldwin went to Palatka on Monday to attend the county tax sale and other business.

Rev. and Mrs. T. H. Sistrunk have returned from the district conference held at Coleman and report having had a most instructive and pleasant time.

J. H. Pearsall of Westfield, N. J., is the guest of T. A. Birt for a few days. Mr. Pearsall is here in the interest of his brother's properties in and around Melrose.

IN THE MAYOR'S COURT.

Three Offenders Were Before the City Court Saturday.

Notwithstanding that Saturday is usually a dull morning with the municipal court, there were three cases before Mayor Thomas at the session yesterday.

Will Micklin, for fighting, was fined $5 and costs, or thirty days.

Randall Moons, drunk and disorderly, $5 and costs.

William Johnson, fighting, $5 and costs or thirty days.

All offenders paid their fines and were released.

A Pleasant Occasion.

At the home of their parents, Mr. and Mrs. J. H. Morton, South Arredondo street, on the afternoon of July 4, Master Reed and Randolph Morton entertained a number of their young friends.

The children were robed in the national costume, the effect being very pretty. The program comprised games appropriate to the little folks, and was greatly enjoyed.

During the afternoon delicious refreshments of ice cream and cake were served, and at the conclusion there was a display of fireworks.

At a late afternoon hour the little guests departed with hearts full of appreciation and gratitude for the little hosts, with the wish that they might enjoy many more "Glorious Fourths."

MANY TRAGEDIES REPORTED.

One Murder, Two Drownings and a Suicide Occur in Florida.

Pensacola, Fla., July 6.—A number of casualties occurred in this county Thursday, among them being a murder at Millville, two drownings at Molino, a suicide and an attempt at suicide at Century.

The suicide was perhaps the saddest of the day's happenings. Miss Ellen McCormick, a 15-year-old girl, drank a quantity of laudanum, from the effects of which she never recovered.

The young lady was to have been married to a young man of Century. Her brother, however, violently opposed the marriage, and this opposition was the cause of the girl taking her life.

Seeing his sister dying, and knowing the cause of her suicide, the brother was so overcome with remorse that he tried to end his own life by cutting his throat.

At Molino, William Charles entered the home of Harry Jones, and accused him of sending him a letter ordering him to leave that section. Jones said he never sent the letter, and Charles proceeded to give him a beating, but before he had finished, Jones secured a revolver and shot his assailant to death. He is still at large.

At Molino five negroes attempted to cross the Escambia river in a small row boat. It capsized when in the middle of the river. Three of the men succeeded in swimming across, but John Egan and Rosa McDonald could not swim, and were drowned.

FIGHT OVER RIGHT OF WAY.

Conflict Between Guggenheim and Bruner Interests in Alaska.

Seattle, Wash., July 6.—A special to the Post Intelligencer from Valdez, Alaska, says:

One man is dead, another badly injured and nine are more or less seriously wounded as a result of the conflict between the Guggenheim and the Bruner interests at Katalla Tuesday. The fight is over a right of way which the Bruner forces are protecting.

The Guggenheim interests stationed detachments of armed men at points commanding the disputed territory. Early in the day Tony DePascal, in charge of a party of laborers, started out to lay track over the Bruner right of way under cover of a fire from these camps. A brisk fire was opened from the Bunrer camp, but DePascal's men succeeded in capturing the steel "go devil" on which the Bruner camp had relied to destroy the work done by their opponents.

Representatives of the Bruner interests are making every endeavor to have Governor Hogatt send troops to the scene of hostilities.

Last spring it seemed as though I would die, and I think I would if I hadn't taken Chamberlain's Colic, Cholera and Diarrhoea Remedy. I haven't been troubled with it since until this week, when I had a very severe attack and took half a bottle of the twenty-five cent size Chamberlain's Colic, Cholera and Diarrhoea Remedy, and this morning I feel like a new man." FOUND IN DYING CONDITION.

Local Manager of Bradstreets' Victim of Thugs in 'Frisco.

San Francisco, July 6.—With his skull fractured and face terribly beaten up, George McGuire, local manager of Bradstreets', was found in a dying condition Friday at Jackson and Fillmore streets.

According to the story told to the police, McGuire alighted from a street car and started to walk to his home, a distance of three blocks. As he started up the street he was accosted by a couple of men, who, according to a woman who witnessed the affair, asked McGuire if he had ridden on the car. Upon his replying in the affirmative, he was set upon by the men and beaten into unconsciousness. The police have no clews.

Take the Postmaster's Word for It.

Mr. F. M. Hamilton, postmaster at Cherryvale, Ind., keeps also a stock of general merchandise and patent medicines. He says: "Chamberlain's Colic, Cholera and Diarrhoea Remedy is standard here in its line. It never fails to give satisfaction and we could hardly afford to be without it." For sale by all druggists.

SERMONETTES

Written for THE SUN by J. Marvin Nichols

Poverty is never a defense.

Wealth is never an apology.

Pluck is infinitely more than luck.

Be true even if all the world is false.

In life's game be sure to play the winning card.

The husband's place in the home is what the wife makes it.

How can you expect anybody to know your heart when you are all the time keeping it yourself.

Every man in the world "spots" the current heart that will not be the last to trouble—and the matter is never an apology.

An American man is the husband of just one woman. Otherwise he's the chief of a tribal tent or the manager of an oriental harem.

Lots of folks have a heap to say about their individuality being crushed out. A better thing could never happen for some folks I know.

What is there in the fact that as late as 1900 our country had developed a vast army of 1,750,000 men who were wage earners?

They say that the Boston women will wear Friday dresses but a few times this year. Many a hubby will thank the head where she will be seen.

Every man who is the woman who shares with her husband the joys of prosperous years and then remains by him when the evil days come.

There's a whole lot of foolishness about our troubles being "blessings in disguise." But a surety, some of us are slow to take the thing unless it comes that way.

The old spirit—now my idol—once was that love is the only earthly thing the soul may bear beyond the span of time; that love alone surmounts life's severed bond.

The dainty heiress destined she should marry nothing less than a title nobleman—and the old man's heart was lonely when he told her she could never find anything less.

An American woman is the wife of just one man. Otherwise she's not a recruit to swell the rapids of this modern strenuous age. To love once—that's civilization; to love Tom and one more—that's nature.

Our problem is not of lifting the downtrodden who come to our free countries but of lifting American childhood out of the danger and depravity of the foreign borders settled in congested centers. That's our call—clear and distinct.

To remain cheerful in defeat and "keep everlastingly at it" is a qualification of transcendent value. The man who is sour in defeat has no reserve in him. He who smiles and gets ready to come again has not really been defeated.

One day the office boy went to the editor of Soaring Eagle and said: "There's a tramp at the door and he says he has had nothing to eat for six days." "Fetch him in," said the editor. "If we can find out how he does it we can run this paper a week longer."

The truest love has a compelling touch that quickly fills all the silent places of the human soul. It is the greatest thing in the world, says one—the only real and actual force. It turns all our weeping into smiles and fills our tears with a thousand rainbow tints.

The heart that really loves never gives up its quest. If spurned, it still stands in the storm outside the closed door and waits until its very constancy compels. Such devotion will burn the barriers all away—and it will. Its very kingliness will crown the brow of the queenliest of them all.

It is not especially to our credit that we are readier to condemn what we see wrong than to commend the good. Too much goodness is always uncomfortable. It comes as a challenge to us every time. We know just how the Athenian felt when he voted to exile Aristides because he was tired of hearing him called "The Just."

One could dream of no greater calamity than the rule of "money power," plotted by a criminal daily [illegible] for a man to amass a fortune by the press but when a rich man buys a great publication it bodes no good. He intends it shall be "his doll" or else he proposes to make and unmake men—and at his will.

The world as it is constituted today has two standards of morality—one for a man, another for a woman. If a man violates the so-called rules of society, even the worst sin is but "sowing wild oats." The merest deviation upon the part of a woman puts her under the ban and makes her an ostracized social outlaw. The whole thing is an unspeakable travesty on justice.

I detest a negative character—these silent figures in a restless, bustling world. I despise the sort that is content with the mummy life. Somehow I like the fellow that does something, and does it wrong far more than I do the fellow who does nothing for the fear that he will do something wrong. Start something. There's a tonic in a dare. Scare somebody—antagonize somebody. Who cares?

The woman who persistently buries her unspeakable sorrow beneath a wealth of smiles has every right to pillow her tired head on any bosom that dares to promise a cessation of her agony. And she cannot be mistaken if her soul clings to him like steel to a magnet. She may not know whence nor how comes the call to him, but if she hears she answers. Unending blight must settle on him who essays to keep these already kindred spirits apart.

STORM CLAIMS FIFTEEN VICTIMS

Several Towns Greatly Damaged in Western Wisconsin.

St. Paul, July 6.—It is now believed that at least 15 lives were lost in the severe storms that swept over a portion of western Wisconsin Wednesday night.

Numerous other persons were injured, and much damage to farm property and dwelling houses is reported.

According to reports received here, the little town of Oakdale, on the Milwaukee road, near Camp Douglas, was entirely wiped out. Four people are reported to have been killed there. At Grand Rapids, Wis., there are said to be five dead as the result of the storm.

The injured number about 25, of whom two will probably die.

Fatal Quarrel Over Property.

Springfield, Mass., July 6.—James Delehanty is dead as the result of a murderous attack which Maurice Hills of Chicopee, made upon his divorced wife, Hattie W. Hills, Thursday night, and Mrs. Hills was seriously wounded. The murdrer is under arrest. The shooting resulted from a quarrel over the disposition of farm property in Long Meadow, the title to which was in Mrs. Hill's name and which Hills wished her to sell.

Fire Losses in United States.

New York, July 6.—The losses by fire in the United States and Canada during June as compiled from the records of the Journal of Commerce and Commercial Bulletin, aggregate $14,765,000. This brings the total fire waste for the first half of 1907 up to $117,477,500 as compared with $277,065,650 for a like period of year 1906, but these figures include $200,000,000 chargeable to the San Francisco conflagration.

Captain and Six Men Drown.

Hamburg, July 6.—Advices received here report that the tug Sao Bento, built in Hamburg for the Hamburg-South American Steamship Amazon service, foundered in the bay of Biscay while in tow for Brazil. The captain and six men were drowned.

Bad Burn Quickly Healed.

"I am so delighted with what Chamberlain's Salve has done for me that I feel bound to write and tell you so," says Mrs. Robert Mytton, 457 John street, Hamilton, Ontario. "My little daughter had a bad burn on her knee. I applied Chamberlain's Salve and it healed beautifully." This salve allays the pain of a burn almost instantly. It is for sale by all druggists.

Sore Nipples and Chapped Hands

Are quickly cured by applying Chamberlain's Salve. Try it; it is a success. Price 25 cents.

BLOOD POISON

CURE YOURSELF AT HOME

Contagious Blood Poison begins in the most insignificant way, and with less evidence of what is to follow, than any other disease. The first symptom is usually a little sore or blister, whose appearance does not indicate that deeper down, in the blood, a treacherous and deadly poison has found its way to corrupt and vitiate the entire circulation, and later to disease the body with the most loathsome and hateful symptoms. Unless one has experienced or witnessed the terrible results of Contagious Blood Poison, no idea of its effects can be formed.

When the blood has become fully inoculated with the virus, the mouth and throat ulcerate; glands in the neck and groin swell, and sometimes burst, forming ulcers; the hair comes out; copper colored spots appear on the body; and where the disease is allowed to remain in the system it penetrates deeper and deeper, until it affects the bones, causing them to decay, and makes a complete physical wreck of its unfortunate victim.

Not only the first one who contracts the disease must suffer, but it is transmitted through the blood from generation to generation, and innocent lives are blighted and diseased by this monster poison. No other disease is so highly contagious as blood poison; in the most trivial manner it may be contracted by innocent persons. Many have been inoculated with the virus, and suffered the disastrous and destructive effects of the poison, by a friendly handshake, or by using the same table ware or toilet articles, or handling the clothing of an infected person.

I was treated for two years by blood specialists, who treated me with mercury for Blood Poison, without good results, so I gave them up and started to use S. S. S. When I commenced its use I was covered with sores and eruptions, and was very weak and run-down. Today I am myself again, and my skin is as clear as a baby's. I know it made a positive cure for me of Blood Poison in the very worst form, and I am making it my business to have my friends use it as I did, and a great many of them are having wonderful results in the way of a cure.

I am, today, a living testimonial to the value of S. S. S. in cases of advanced Blood Poison.

HARRY BAUGHTT.

424 West North Avenue.

Strong mineral medicines like mercury and potash are often given to cure Contagious Blood Poison, but years of failure have proven that such treatment cannot cure the trouble. These medicines can only patch or shut the disease up in the system for awhile; as soon as they are left off the symptoms return in all their hideousness, and the sufferer finds he has wasted valuable time, and in addition, ruined his health with these harmful drugs.

S. S. S. is the antidote for Contagious Blood Poison—the only remedy that is able to get at the root of the disease and force out every particle of the poison, so that there are never any signs of its return. It can be used and a perfect cure of the disease made in the privacy of your own home. Sufferers from this disease can be their own doctors, and the forty years of cures made by this remedy assures them that the treatment is in every respect the proper one, and that its use, together with any suggestions as to local treatment, which will be furnished by our physicians free of charge, will cure the trouble permanently and privately. S. S. S. is made entirely of purifying, healing roots, herbs and barks. ● We offer a reward of $1,000 for proof that it contains a particle of mineral in any form. S. S. S. goes down to the very root of the trouble, and by driving out the last trace of the poison, and making the blood pure and strong, cures the disease thoroughly and with certainty. S. S. S. will also remove the effects of any mineral treatment that may have been previously used.

S.S.S.

CONTAINS NO MINERAL

Our "Home Treatment" book on this disease is a complete guide for treating the trouble. It contains instructions for the different stages of the disease, and also advice about the local treatment that will be the most helpful in effecting a cure. This book, together with any special medical advice desired, will be sent free by our physicians, to all who write. ●

Miss Irene McCreary informally entertained the members of her East Florida Seminary graduating class Friday night. The game known as "Bunco," which is played with six dice, was the amusing feature of the evening. Delicious refreshments were served and the affair was greatly enjoyed by all present. Profs. Floyd and Lynch, members of the E. F. S. faculty, when Miss McCreary graduated, were among the guests present.

In this day of trust-ridden humanity it is refreshing to learn how one concern has beat the trust. The Chicago Beef Packers are the principal stockholders in the leather trust and the leather trust fixes the price of leather to all shoe factories. In order to fight this trust The Endicott-Johnson Co., one of the largest shoe factories in America, have established a tannery of their own and are the first and only factory that tan their leather from which they manufacture shoes. Consequently they are independent of the trust and can make shoes for less money than any shoe factory in the world. Hyde & Tench have the exclusive right to sell their goods in Gainesville. The firm is congratulating themselves on their business foresight in controlling this line, as the shoe trade generally concede that the new system will revolutionize the shoe industry and will strike a death blow to one trust at least.
